Education

University of Colombo (UCSC)
Bachelor of Information technology
2023 - present

Evotech
Java Master course
2024

Evotech
Web Development Master Course
2024

Skills

- HTML,CSS,Java Script
- PHP
- Java,Python
- WordPress
- Bootstrap,Tailwind CSS
- MySQL,MongoDB
- UI/UX Design(Figma)

Experience

Java Projects

Developed multiple software applications using Java and MySQL, including:
- Billing Management System: Tracks sales, generates invoices, and manages customer billing.
- Library Management System: Manages book inventories, member records, and loan transactions.
- Bank ATM System: Simulates ATM functionalities such as balance inquiries, withdrawals, and deposits.
- Java Calculator: Performs basic mathematical operations with a simple user interface.
- Weather App: Fetches and displays real-time weather data for selected locations.
- Student Management System: Manages student data, including enrollment, grades, and attendance records.

Each project features a user-friendly interface, secure data management, and efficient performance.

PHP Projects

- Developed a Student Management System using HTML, CSS, JavaScript, PHP, and MySQL. The system allows for efficient management of student information, including enrollment, grades, attendance, and personal data. Implemented user authentication, data validation, and database integration for secure and seamless data handling.

HTML,CSS,JavaScript

- I have made several websites using HTML,CSS,JavaScript,They are available on my GitHub.

Wordpress Projects

- Lisinicare website using divi theme
- Raboota ecommerce web using divi theme and woocommers Plugins
- Scholership website using divi theme

UI/UX Design

- web site (ecommers) -- Figma
- scholership web site -- Figma
- Mobile app Redesign -- Figma
- krypto Redesign -- Figma
- ALIANCES -- Figma
